

DOLLARS_TO_WORDS (3)

DOLLARS_TO_WORDS (3)

NAME

dollarsToWords - convert a numeric dollar amount to words

SYNOPSIS

CHAR dollarsToWords(**numericDollars**)
MONEY(8,2) numericDollars

DESCRIPTION

The argument **numericDollars** is a numeric dollar amount.

dollarsToWords will convert a MONEY(8,2) or DECIMAL(8,2) dollar amount to a sentence of words suitable for checks. If the sentence is larger than 70 characters, the dollar amount is formatted and returned instead.
